Enrollment and Lottery Procedures for 2022-2023 School Year

Northwest Classical Academy (NCA) has established the following procedures to ensure an objective, orderly, and fair enrollment process:

Application

1. Enrollment is open to any grade level eligible student who resides in the State of Georgia. For the 2022-2023 school year, enrollment will be available in grades K-8.
2. NCA has contracted with SchoolMint, an industry leader providing enrollment and lottery software and services, to ensure a fair and transparent process for all prospective families.
3. The enrollment application for the 2022-2023 School Year is available beginning on January 3, 2022.
4. Students who apply for admission to NCA for the 2022-2023 school year before 4pm on February 28, 2022 will be entered into the lottery.
5. The NCA Enrollment Manager is responsible for ensuring that all applications within the lottery pool are verified, that qualified individuals are conducting the lottery, that the lottery procedures are established and tested, and that the names of all students who are eligible for the lottery are included in the lottery pool.

Enrollment Priorities and Processes established by Georgia Law and Charter Agreement

6. NCA provides enrollment priority to a student whose parent or guardian is a member of the governing board of the charter school or is a full-time teacher, professional, or another full-time employee at the charter school.
7. NCA will employ a dynamic, sibling-attending preference for enrollment at the school. The sibling preference will apply to all siblings of students who receive an offer of enrollment from NCA.
8. In accordance with O.C.G.A. 20-2-2066(a)(1)(A), and as required based on the terms of the charter agreement, NCA will implement a weighted lottery for economically disadvantaged students. To facilitate the weighted lottery, applicants will indicate their economically disadvantaged status on the application. Applicants who receive offers will be required to provide documentation of the economically disadvantaged status.
9. The weight shall be calculated annually with the formula $W = (PA - PE) / (E - PE)$, provided however, the weight shall be no less than 4:1.
 - a. The variables of the weighted lottery formula described above shall be defined as follows:
 - i. "P" shall be equal to the percentage of educationally disadvantaged students in the local school system in which the Charter School is

located as measured by the Governor's Office of Student Achievement for the previous school year. In the event the percentage of educationally disadvantaged students in the local school system in which the Charter School is located is more than 50%, P shall not exceed 50%.

- ii. "A" shall be equal to the total number of Kindergarten applications from all students.
- iii. "E" shall be equal to the number of Kindergarten applications from students who qualify as educationally disadvantaged.

Lottery and Registration Process

11. Offers of enrollment will be made from the waitlists for up to 72 seats in kindergarten and up to 72 seats in 8th grade immediately.
